

PF PROJECT REPORT

LIBRARY MANAGEMENT

Project development is not an easy task. It requires corporation and help of various people. We are really thankful to our teacher Syed Zain and Anam Qureshi and sincerely want to inspire feelings of gratitude towards the ones who helped in the completion of this project.

Objective: The objective of this project is to make an easy-to-use and well functioned library management system that can guide, access and work well no matter who the user is.

Functionalities

- 1) Create student, admin and librarian accounts.
- 2) Data and records of students and books can be manually added, updated, deleted and accessed.
- 3) Search for desired books through different methods.
- 4) Stock check
- 5) Fine for late return of the book.
- 6) Display books issued, student records etc.

Concepts and Libraries

Libraries:

- <iostream>
- <iomanip>

- <string.h>
- <fstream>
- <conio.h>

OOP Concepts included:

- Classes
- Inheritance
- Arrays & Passing
- Set-Get functions
- Objects
- Classes
- Filings
- Pointers

Workflow.

There are 3 users in this system, each have different functionalities. Admin can log in for different purposes and is the supreme head able to access, manage, create and delete books & students. Students will be able to make their ids and login to issue & return books plus face fines if exceeding limit of 15 days. Librarian is able to control stock & see student details.

Future Work

Import books from other libraries.

Save data for previously logged in student so that they can save efforts and time needed for accessing the library.

Screenshots

```

                                WELCOME TO THE LIBRARY

                                PRESS 1) STUDENT
                                PRESS 2) LIBRARIAN
                                PRESS 3) ADMIN

                                PRESS 4) EXIT

                                ENTER USER:

```

```

                                ADMIN MENU

                                PRESS 1) BOOK MENU
                                PRESS 2) STUDENT MENU
                                PRESS 3) EXIT

                                OPTION: 1

                                Press 1) CREATE BOOKS
                                Press 2) DISPLAY ALL BOOKS
                                Press 3) DISPLAY SPECIFIC BOOK
                                Press 4) MODIFY BOOKS
                                Press 5) DELETE BOOKS
                                Press 6) BACK TO MAIN MENU
                                Option:

```

```

                                BOOK RETURNED IN HOW MANY DAYS?: 18

```

```

                                YOU HAVE TO PAY A FINE OF: 150

```

```

                                Book LIST

=====
Book Number      Book Name      Author
=====
1                yyy          asir
2                zzz          ahad

```

```

                                STUDENT MENU

                                PRESS 1) ISSUE BOOK
                                PRESS 2) RETURN BOOK
                                PRESS 3) EXIT

                                OPTION:

```

```

                                PRESS 1) BOOK MENU
                                PRESS 2) STUDENT MENU
                                PRESS 3) EXIT

```

```

                                OPTION: 2

```

```

                                Press 1) CREATE STUDENT RECORD
                                Press 2) DISPLAY ALL STUDENTS RECORD
                                Press 3) DISPLAY SPECIFIC STUDENT RECORD
                                Press 4) MODIFY STUDENT RECORD
                                Press 5) DELETE STUDENT RECORD
                                Press 6) BACK TO MAIN MENU

```

```

                                Option: 2
